Brian Schweitzer
Governor

Chief Information Officer

Advisory

October 21, 2008

To: Distribution

Subject: Prioritized Use of SummitNet

The statewide communications network – SummitNet- is a finite resource provided to support the business of state and local government, the National Guard and the university system.

Because of the increased load on SummitNet stemming from increased election season requirements, and the need to give priority to the election process and primary revenue-generating activities, all agencies are advised to limit non-essential SummitNet usage.

During this period, agencies are advised to prioritize and limit their SummitNet usage to mission-critical applications.

Please address any questions, comments or concerns to:
